Ethnicity: Not Hispanic or Latino
Race: Asian **Phone:** (608) 492-4116
Address: 311 Douglas St **Levelland, TX 79336**

Clinical History: None, Unspecified

Source: Nasopharynx and Oropharynx swab specimen

Detected:

Result Summary:

Result	Viral	Test Type / Notes
Not Detected (NEGATIVE)	SARS-CoV 2 (COVID-19)	Real-time PCR (Nasopharynx and Oropharynx swab specimen) CT Threshold < 40 Positive CT Threshold > 40 Negative

Additional Information:

Onset Date: 10/26/2021
Patient Status: Resident, Non Military
Additional Information: Requires same day testing for travel purposes

Disclaimer: This test is performed utilizing a multiplex PCR platform. All controls show appropriate reactivity. Positive or Detected results indicate that the SARS-CoV-2 genetic material was detected in the specimen. Negative or Not Detected results indicate that the SARS-CoV-2 genetic material in question was not detected in the specimen or the specimen levels could not be detected by the instrument. The above examination results only describe the conditions during specimen collection. PCR results cannot be compared between one laboratory and another due to differences in the tools and target genes used.
